Dear Jennifer Anne Brehme,

[<http://jennifer-anne-brehme.fuckeduphuman.net>]

Mental Health Program Director,

Foothill Aids Project,

Ms. Brehme, [and the rest],

You must realize what has happened.

When you realize the rational truth, your organization along with a huge host slew of you all of the Ryan White Care Act funded social service agencies across this entire nation, --- you all have done "fucked up!"

In your "Grand Illusion" to weed out and brush out/off/aside your faith against us "The Dirty" has made a great disturbance in "The Force" of #SocialTrust.

Here are the facts,

In July of 2016, I published a LinkedIn Article which is my Community Address #06 : [
<http://community.gruwup.net/06/>]:

<https://www.linkedin.com/pulse/gruwup-community-peacebuilding-binding-knot-called-mpatapo-driskill/>

@Gruwup #Community #Peacebuilding : Binding Knot of Reconciliation called Mpatapo is missing in our modern world of information technologies.

Published on July 16, 2016

James Driskill

Owner, realuphuman.net

I quote from my article on Information Technologies of a "Trust Building Network",

"Without the Mpatapo binding knot forced into information theory, the powers of enforced unification of parties, that this Adinkra symbol represents the resolute is what is resounding missing here obvious to me and the result of that missing empowerment is the violence that is holding onto the [#BlackLivesMatter](#) and [#PoliceLivesMatter](#) conflicts that has been bubbling up to the surface. This is due to the separation of distrusts so eroded that these persons defined as actors involved having an ill mind [mental illness] or

evil doing thought [sane intentional harm based thoughts to actions] we want to define for collective discussions.

But conclusively immaterial is the matter of principle wisdom guidance that no matter who they are and what baseline thought of considerations they have previously or in situation disclosed they have and no matter who we are of permanence of all of good intentions are phony to their mindful thoughts of trusting collectives. This must be understood as a resounding presence unchangeable in their mind presence for them to continue balanced and civilized onto their sense of stated presences of intentions bearing chaos and calamity in this unbalance unresolved of its challenges to define, for some this to which they themselves cannot comprehend to the understandings of reasoning of why it a life presence setup against them life time obvious is this way."

CHAPTER IX.

SOCIAL IMPROVEMENT.

"Go fix some weighty truth ;
Chain down some passion ; do some generous good ;
Teach ignorance to see, or grief to smile ;
Correct thy friend ; befriend thy greatest foe."

As in the material world, without light there can be no shade to contrast with it, and as no poison exists without its opposite in the form of an antidote, so it is in the mental world, there is not a moral evil or poison, however deadly, but has its antidote in the spirit. Our Saviour suffered in, and left, the material world, in order that He might restore to us the use of our spiritual nature. He said, "I go to send the Comforter unto you, that He may teach you all things." This spirit was promised without limitation, or reservation of any kind, to all who loved God, and

The 9 Scourges of Inequality and the 12 Steps of Social Improvement to Rebuild Trust In Our Communities

Published on June 13, 2019 [Edit article](#) [View stats](#)

19 articles

There are 9 scourges of inequality.

1. The erosion level of trust between people.

2. Lack of trust leads to disconnection from others and the breakdown of social bonds.
3. The increase in certifiable mental illness including addictions which are a form of mental problems
4. Eating disorders and obesity
5. Lower life expectancy
6. Homicides including mass murders, a dramatic form of murder
7. Suicides
8. Imprisonment rates and
9. The loss of social mobility.

12 Steps Of Social Improvement To Rebuild Trust In Our Communities

[Adapted From 12 Step Programs Of Addiction]

1. We understand that one person alone cannot solve the chronic societal and personal problems that are making our lives very difficult to manage.

2. We have come to believe that only a collective, which is a power greater than our individual selves, can move us and our nation forward to a healthier, more democratic place.

3. We decided to commit time and energy, will and belief in the future to work together for change.

4. We took a serious and thorough moral measure of ourselves, noting the ways we collude with societal forces in our own exploitation, and noting our embrace of practices and beliefs about ourselves and others that make us vulnerable to being manipulated and exploited. This is an important step. We need to be aware that we are not just victims or victimizers, we are also collaborators. We are not helpless. We can also act...-for better or for worse. What we need to do now is unite around basic principles and create programs to achieve goals for the benefit of all.

5. We have admitted to ourselves and out loud to others, the ways we have collaborated in our own victimization and the victimization of others.

6. We are working to move beyond certain dysfunctional behaviors by taking action to better our own and other's lives. Some members of our collective take support from

their religious or spiritual beliefs, as a private matter.

Everyone's contributions enrich our group's development and efforts to create a broad unified movement.

7. We ask for, and are ready to give, the much-needed support that will help us unlearn collusion and internalize the new knowledge and wisdom that comes to us through our efforts, and which is so necessary for our growth. We also ask for, and will give, support to help us rebound from the disappointments likely to occur among our triumphs.

8. We are studying to fill the gaps in US history, the better to grasp both the similar and different realities lived by the diverse peoples who have populated our nation from the very beginning. We are studying the systemic arrangements: economic, political, social and psychological; the terrains of class and color, poverty and wealth, privilege and persecution, the marvelous and shameful, the horrible and the beautiful. We do this not just to discover, learn and acquire knowledge for its own sake, but to more inform our thoughts about the dignity of life, creating change and building the future.

9. We continue to take a moral measure of ourselves, as individuals and as a nation. When we are wrong, we admit it.

10. We work to promote and to demand from our government-federal state and local- fair and just domestic policies that support American's efforts to live healthy and productive lives. We also work to promote and demand humane and non-exploitative foreign policies that encourage peaceful relations between nations and the well-being of all humanity and our planet earth.

11. We seek- through experience, study, meditation, imagination, discussion, and listening to each other- greater understanding, knowledge and consciousness of the human condition and all life, the better to connect with others in developing a well-functioning, life-affirming, democratic society.
